

**ENER-G FOODS, INC.**

## ENER G FOODS, INC. ALLERGEN STATEMENT

Ener G Foods, Inc. is a wheat-free, gluten-free, dairy-free, nut free, peanut free, kosher certified facility. The company has three separately owned production lines. All products manufactured by Ener G Foods, Inc. are subject to our HACCP program. This program is in addition to current Good Manufacturing Processes required by the federal and state governments.

The HACCP (Hazard Analysis and Critical Control Point) program identifies critical points in production operations that inherently lend (even minutely) itself to contamination issues (including cross-contamination), food safety issues, etc. Even though this program is not required for bakeries, the company believes that by being a HACCP compliant facility, all risks of cross contamination, or even any food safety issue will be completely eliminated.

Our food safety programs for all three production lines require us to clean, sanitize, and inspect after each and every product is run through the line. In addition, the equipment utilized by the company is designed for multiple products.

Even with this program, the company would like to disclose any of the top 9 allergens that are used on each of the production lines.

### Bakery:

The bakery production line uses Eggs. These products are produced on separate equipment (pans, bowls, etc) and are separated when not in use. The only common equipment for these known allergens and other products are the ovens. The food product is never in contact within the oven at any time.

### Snack Foods Line:

The snack food line produces our pretzels, Communion Wafers and snack items. This production line is in Pennsylvania.

The snack food line produces pretzels with sesame seeds.

However there are NO allergens run on this line. Completely Gluten Free, Dairy Free, Tree Nut Free, Peanut Free, Soy Free and Egg Free.

We hope this disclosure helps your decision upon whether to purchase Ener G Foods, Inc products. If you have further questions or comments, please email Kathy Hoffman ([kathy@enr-g.com](mailto:kathy@enr-g.com)) or Sam Wylde, III ([samiii@ener-g.com](mailto:samiii@ener-g.com))
